GREEN LITERATURE WEEK
13TH TO 19TH MARCH 2026

The Amor Littera Society, the literary club of the Department of English, Handique Girls' College, is celebrating "Green Literature Week" from 13th to 19th March, 2026, with the aim of fostering ecological awareness through literature and creative engagement. The week-long programme is planned to encourage students to explore the relationship between literature, environment, and sustainability through various literary and creative activities.

The celebration also marks the inaugural day of the literary club of the Department, 'Amor Littera Society' on the first day of the celebration, commemorating the beginning of the club's journey. A range of activities has been planned by the students, including poetry recitation, movie screening, bookmark making (out of waste), short story writing competition, skit performance, and an exhibition-cum-sale.

These events aim to provide a platform for students to express their creativity while reflecting on environmental concerns and the role of literature in promoting ecological consciousness. Through this initiative, the Amor Littera Society seeks to cultivate environmental sensitivity, literary appreciation, and active student participation, contributing to the holistic development of students and aligning with the institution's commitment to sustainable and value-based education.
