

## REPORT ON WORKSHOP

Handique Girls' College

Department of Statistics

The Department of Statistics in collaboration with IQAC, Handique Girls' College, successfully organised a one-day workshop on **Art & Craft for decorating gift items** on 16-03-2026. The workshop aimed to foster creativity and practical skills among students, encouraging hands-on learning and interdisciplinary participation.

### Sessions Conducted

- **Hand Embroidery Session:** Conducted by *Ms. Jashaswee Bora*, 6th semester, Department of Statistics, HGC. Students learned basic embroidery techniques and applied them to decorate gift items.
- **Pop-up Card Making Session:** Conducted by *Ms. Pompi Kalita*, 6th semester, Department of Statistics, HGC. Participants explored creative methods of designing pop-up cards, enhancing their craft and presentation skills.

### Participation:

Students from various departments actively took part in the workshop. The event provided a platform for collaboration, skill-sharing, and creative expression across disciplines.

### Outcome:

The workshop was highly engaging and successful. Participants gained practical knowledge of hand embroidery and pop-up card making, which can be applied to personal and academic projects. The event also strengthened the spirit of creativity and collaboration within the college community.

### Conclusion:

The Art & Craft workshop organised by the Department of Statistics in collaboration with IQAC was a meaningful initiative that blended creativity with academic engagement. It highlighted the importance of skill-based learning and provided students with an enriching experience.
