

Report on Alumni Talk

The Alumni Interaction program was organized by Department of Statistics, Handique Girls' College on 21st August 2025 to strengthen the bond between past graduates and current students, fostering mentorship, collaboration, and knowledge-sharing. The event aimed to highlight alumni achievements, provide career guidance, and encourage active participation in departmental initiatives.

Objectives

- To showcase the diverse career paths pursued by alumni.
- To create a platform for alumni to share professional experiences.
- To inspire current students through success stories and practical advice.
- To explore opportunities for collaboration in research, internships, and cultural activities.
- To reinforce the sense of belonging and pride among alumni.

Event Highlights

- **Speakers:** Ms. Puja Borah, she is pursuing M.Sc from Cotton University.
- **Topics Covered:**
 - Transition from college to university life.
 - Applications of statistics in research, data analytics, and policy-making.
 - Skills required for competitive exams and higher studies.
- **Engagement:** Interactive Q&A sessions allowed students to clarify doubts and seek guidance for the preparation of higher studies as well as competitive exam.

Outcomes

- Strengthened alumni-student mentorship network.
- Identification of internship and project opportunities through alumni connections.
- Enhanced awareness of diverse career trajectories in statistics and allied fields.

Conclusion

The Alumni Interaction program successfully bridged the gap between past and present, reinforcing the department's vision of academic excellence and cultural authenticity. The event not only celebrated alumni achievements but also laid the foundation for sustained collaboration and growth.
