### The History Portal

History (from Greek *ἱστορία*, *historia*, meaning "inquiry; knowledge acquired by investigation") is the past as it is described in written documents, and the study thereof. Events, or certain habits, written records are considered *non-history*. "Historiography" is an umbrella term that relates to past events as well as the memory, discovery, collection, organization, interpretation, and use of the information recorded or preserved. It includes the history of historiography.

**NVDA Settings: General (normal configuration)**
